Recall Campaign of S&S system reprogram
on Lexus LS500
(Production period: Jan 2018 to Sep 2018)

Crown Motors Ltd. (CML) has received notice from the manufacturer Toyota Motor Corporation (TMC) about the recall campaign for Lexus LS500 (Production Period 11 Jan 2018 to 11 Sep 2018). There are 51 affected vehicles in Hong Kong. There is a possibility that when the engine restarts within a specific time range after the engine stops, an incorrect intake air volume could be calculated, potentially causing the engine to stall during acceleration from the stationary position.

Model	Production Period	Involved number of vehicles (Hong Kong)
Lexus LS500	11 Jan 2018 to 11 Sep 2018	51

CML will contact related customers via letters and implement the recall in accordance with TMC's instructions. The Engine ECU will be reprogrammed at no charge. For enquiries, please contact at 2880 4922. You may also contact our staff at the service centres as below during office hours:

North Point 2880 1551 Kwai Chung 2880 4900
